Multi-function test tweezer ST-10B

輕巧測試鑷子針對微小的電子零件如開關、電阻、保險絲或PCB線路簡單快速測試導通，也能透過專用的連接線與三用電錶結合量測電阻值，此鑷子可輕鬆點亮各式LED非常適合工程師及業務人員做即時測試和展示用。

- ST-10B Tweezers a easy using and quickly checking.
- Mechanical conductive contacted and electronic components,
- Such as button switch, wire open-short, fuse, LEDs.
- Using cable included connected to multi-meter, the ST-10B become probe tweezers it easy to clamp resistor, capacitor, inductor etc....tiny components.
- Very useful for engineer and sales rep. at open-short identify and demonstrates the LED colors.

Test Tweezer

蜂鳴器 Buzzer
增加聲響判斷新功能
New function conductive with buzzer

測量SMD等小型電子零件
SMD or small component

測試保險絲
Fuse open & short check

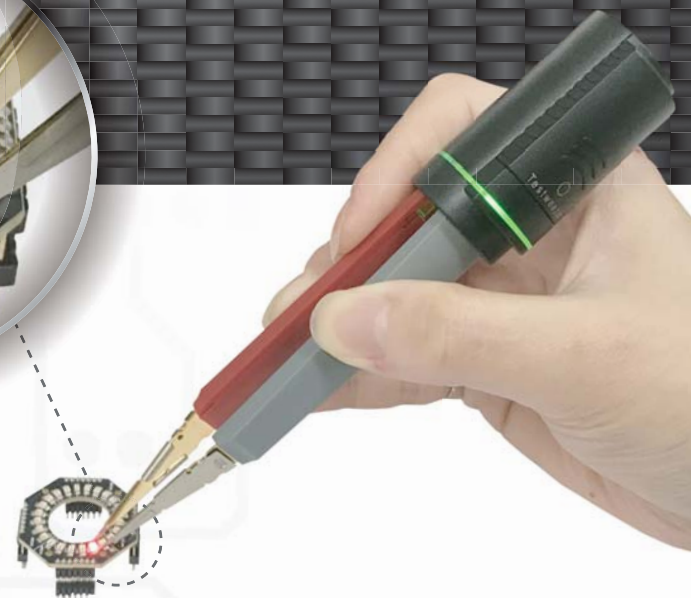

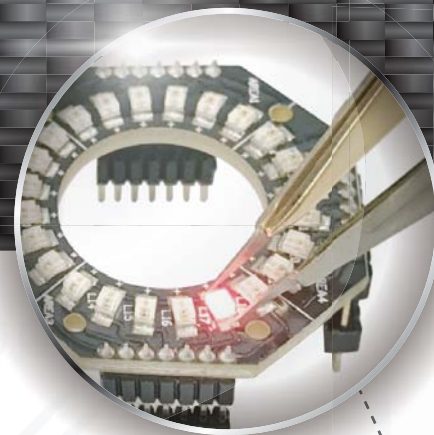

測試LED點亮
LED lights test

PCB線路導通測試
PCB circuit conductive test

專用連接線可接三用電錶
Multimeter connection become SMD probe clip

Shan Pu

Multi-function test tweezer ST-10B

Function

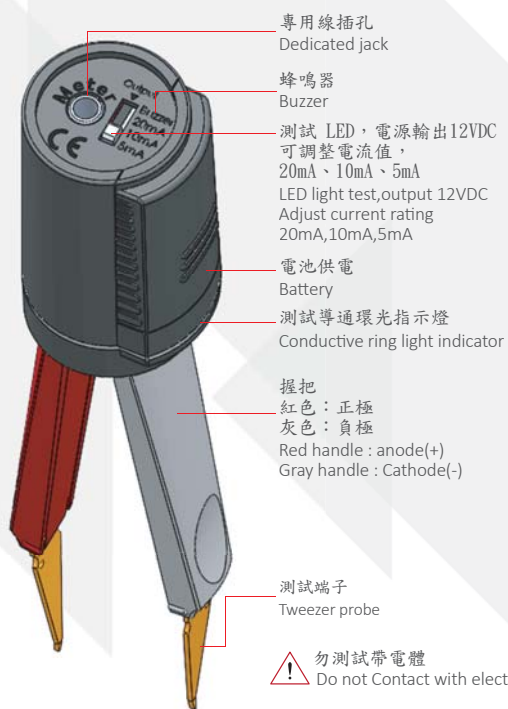

Part Number : ST-10B

Weight : 50g

Material : ABS、Phosphor Bronze

Dimensions : 36*25*155mm

Battery : 23AE 12V

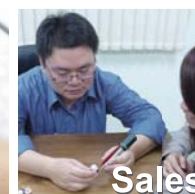

更換電池圖示

Change Battery figure :

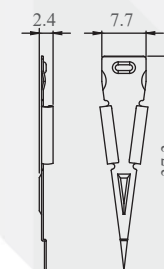

1. 拔上蓋 Pull out top cover
2. 換電池 Replace battery
3. 蓋回上蓋 Recover top cover

Application

Option

Precision Kit : K-ST-10B-01

Material : Copper-Nickel Alloy

Useful tool for measure tiny component
